REASONS FOR ALLOWANCE

These comments are made in addition to the remarks in Applicant's specification and arguments, concerning the manner in which the invention distinguishes from the art discussed therein. The Examiner notes that the prior art does not disclose or suggest the claimed combination including particularly a manufacturing system for

manufacturing printed wiring boards with a detecting unit that detects at least one fractional printed wiring board and a determining unit that places the at least one fractional printed wiring board on at least one predetermined manufacturing block, as described in Applicant's specification at p. 17, lines 8-p. 18, line 5 as well as figure 7 and Applicant's remarks at p. 11, lines 1-12. The prior art lacks this structure or anything equivalent to it.

The foregoing is an Examiner's Statement of Reasons for Allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
